

PACKING & UNPACKING 1

Long coils – slings > 12.5 ton

PACKING & UNPACKING – Limitations of Equipment

**Delivery in a package seems easy,
however, these packages may lead to future problems**

PACKING & UNPACKING – Folding a package

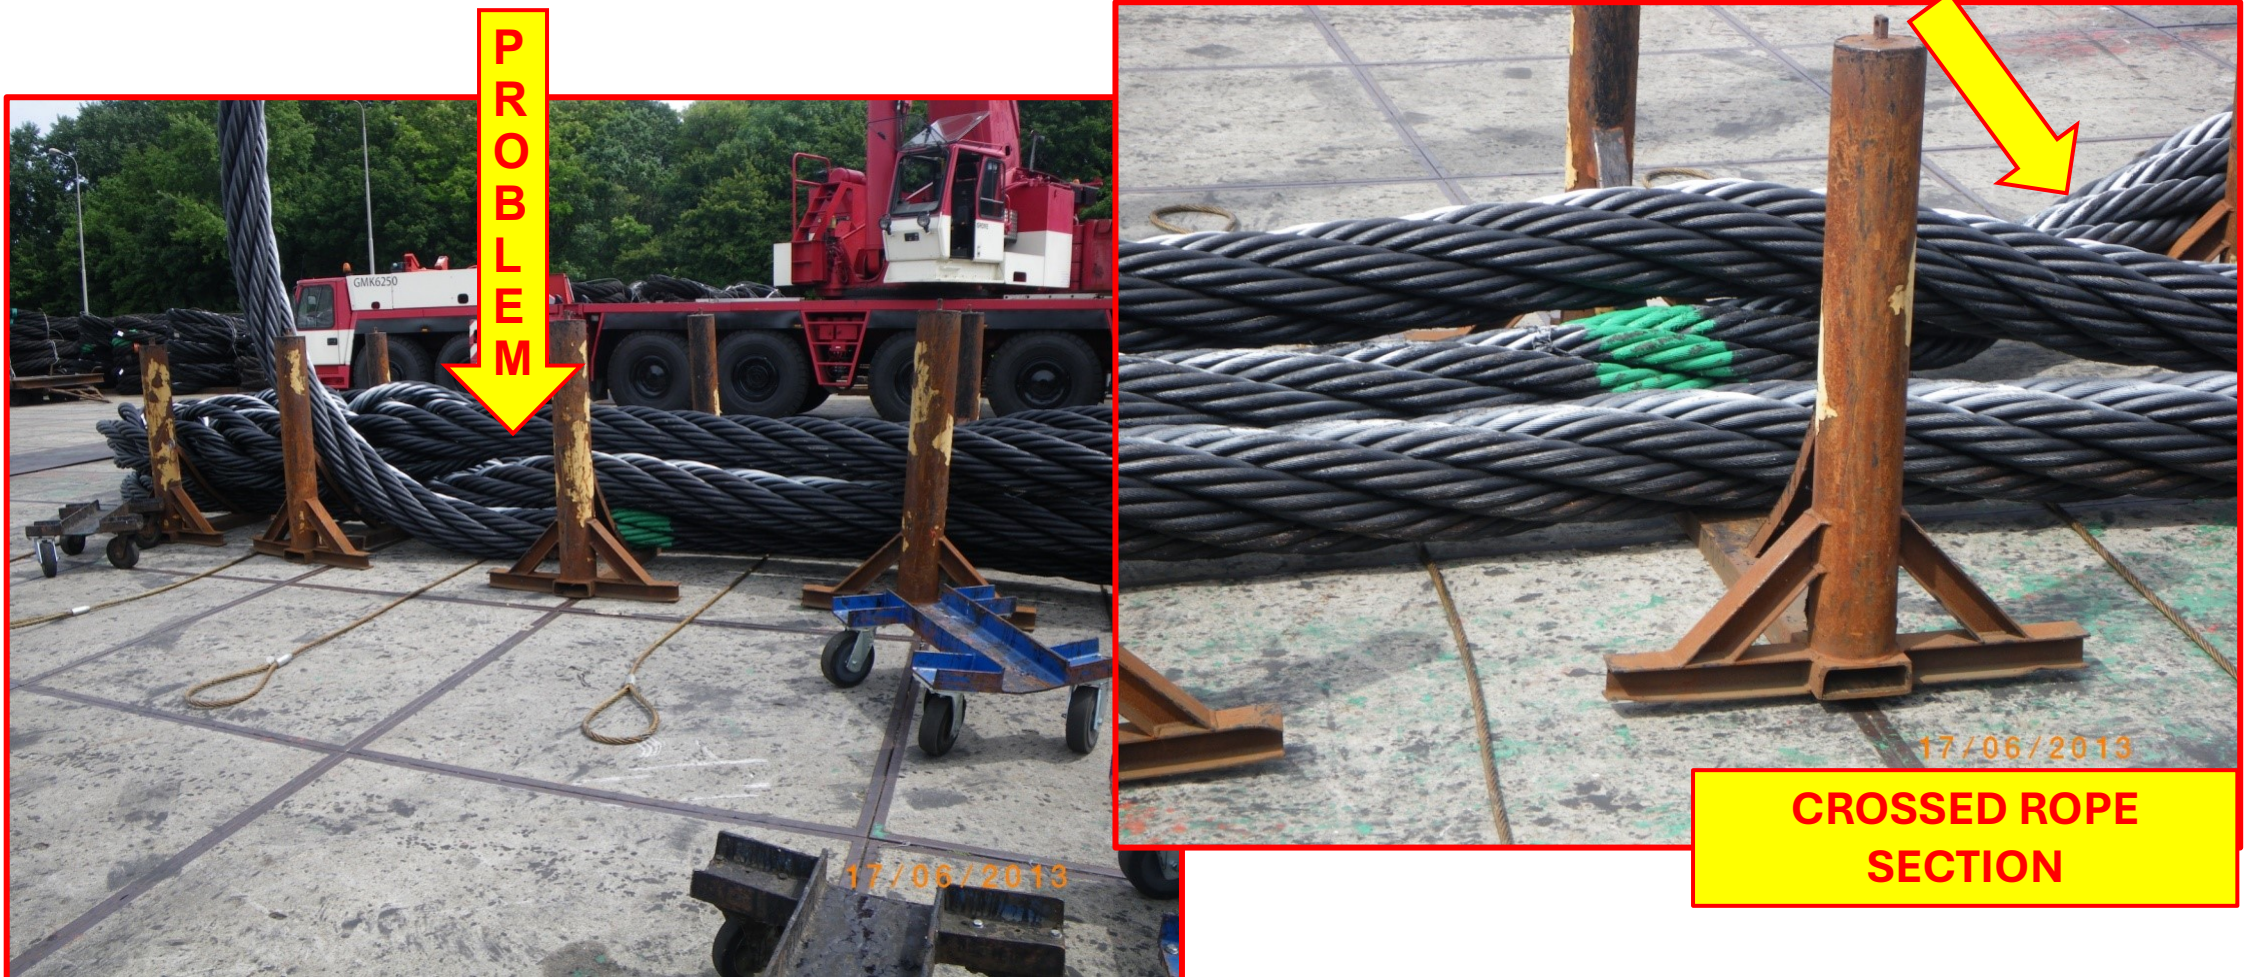

PACKING & UNPACKING – Limitations of Equipment

PACKING & UNPACKING – Limitations of Equipment

*

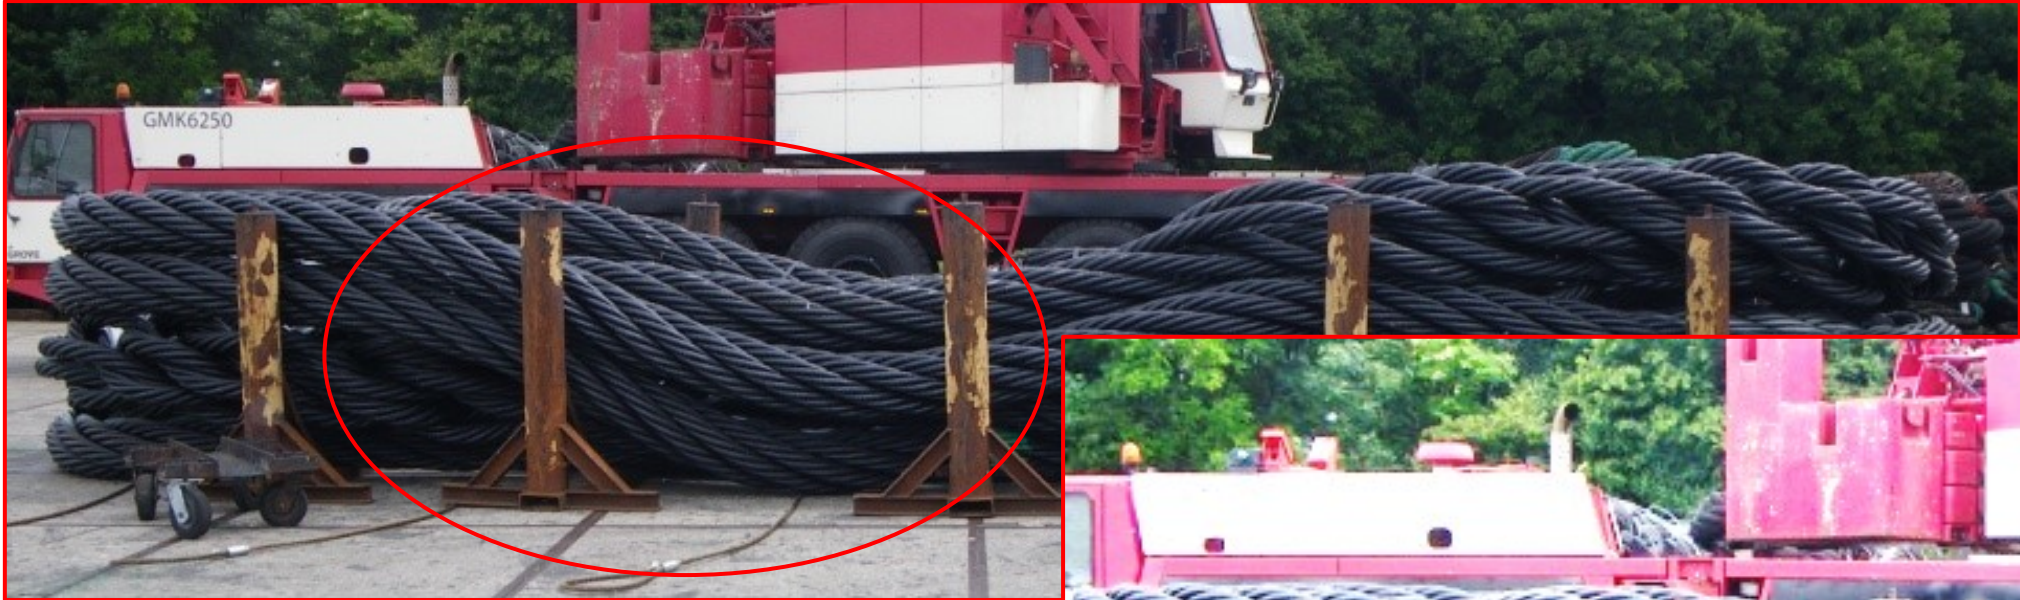

PACKING & UNPACKING – Limitations of Equipment

**NOW IT LOOKS
AS A NORMAL
PACKAGE**

PACKING & UNPACKING – Limitations of Equipment

*

Always look for ropes running from the 1st to the 3rd layer

When unpacking a package:

Pick up the top part of the sling until the second eye, in the middle of the package, is free.(picture 5 on page 3)

Place the top part of the sling on the ground.(place steel plates to avoid damage)

Pick up the eye in the middle of the sling until the complete slings is free.
